# How I made an extra $1,000/month with 5 minutes of work
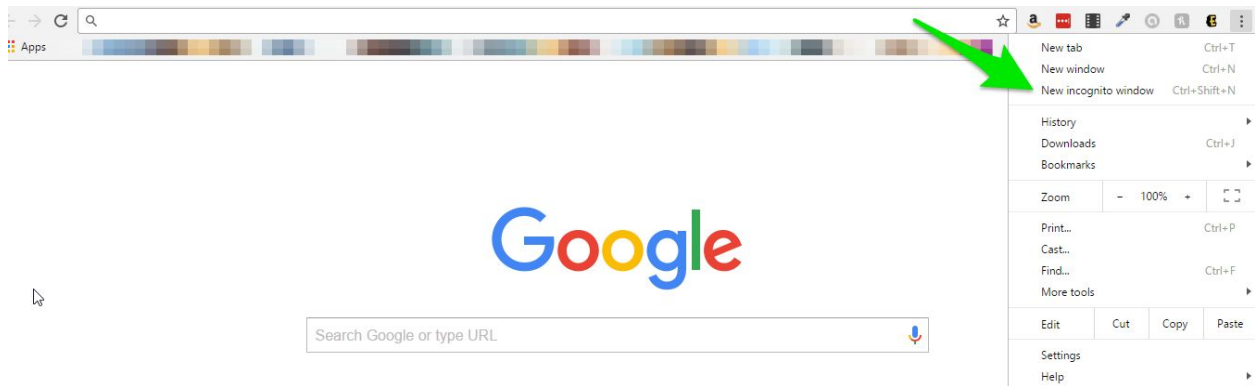

Start with your top 10 articles

- ❏ Find your top 10 highest traffic articles in Google Analytics.

Look for ads on these articles

- ❏ Open an incognito window in your browser.

- ❏ Pull up each high traffic article individually.
- ❏ Assuming you are running CPC ads (i.e. Adsense) refresh the page multiple times to find the relevant ads in that article.

- ❏ Get the URL and go to those websites - DO NOT CLICK on the actual ad as it is likely against the TOC of the ad network.

Look for affiliate programs

❏ Check out each ad website to see if they have an affiliate program and sign up with them!
